Introduction

This instruction packet has been developed to help you with completing the immunization reporting [survey](#).

- See Nevada's current immunization requirements at https://dpbh.nv.gov/Programs/SIP/dta/School_Requirements/School_Requirements/

Grades Reported

For all questions, include all current students enrolled in kindergarten, seventh (7th), and twelfth (12th) grades only.

- Per Nevada Revised Statutes [\(NRS\) 392.435](#), public schools and the governing body of each charter school are required to report to the Division of Public and Behavioral Health the exact number of students who have completed the immunizations required for enrollment by December 31st of each year.
- Per Nevada Revised Statutes [\(NRS\) 394.192](#), each private school is required to report to the Division of Public and Behavioral Health the exact number of students who have completed the immunizations required for enrollment by December 31st of each year.
- Do not include information on pre-school or pre-K students in the responses.
- Children who are students of distant learning programs (such as online schools) that participate in any activities on a school campus, such as sports, should be included in your school's total count.
- Please review and validate the online information prior to submitting your school's immunization information.
- Please fill out all required sections. Do not leave any sections blank.
- You will not be able to complete the survey unless entry is made in all fields.
- If your school's information is incorrect, you will be contacted by the Nevada State Immunization Program.
- If you do not submit your immunization information by December 31st, you will be contacted by the Nevada State Immunization Program.

Exclusion from Reporting

- Children who are entirely home-schooled and do not participate in any activities on a school campus do not need to be included in the school immunization reporting.

Access to Rate Reporting Surveys

To access the annual immunization reporting survey online:

- Go to https://dpbh.nv.gov/Programs/Immunization/School_and_Childcare/School_and_Child_Care_Immunizations/
- Scroll down to the middle of the page and click on “School Survey.”
- Reports must be entered online by December 31st of the reporting year.
- See the following instructions for school immunization reporting submission.

Getting Started

- Collect student immunization reports, using Infinite Campus for public schools, for all kindergarten, 7th grade, and 12th grade students.
- See [APPENDIX A: IMMUNIZATION REQUIREMENTS RESOURCES](#) for Nevada immunization requirements and resources.
- Each school will submit the total counts rather than immunization percentages.
- Schools with multiple campuses must submit each school separately. For example, Sunshine School has three campuses and will submit information on immunization separately for the Happy Campus, the Smile Campus, and the Bright Campus.
- Once you access the survey link, you will be redirected to a separate page.
- Fill out all required sections. Do not leave any sections blank.
- You will not be able to complete the survey unless entry is made in all fields.

Collecting Data

- Please collect immunization records for students enrolled in your school to complete the survey.
 - If you are a Public School
 - [Appendix B](#): Infinite Campus Instructions for Infinite Campus instructions
 - If you are a private school
 - See [APPENDIX C: SAMPLE IMMUNIZATION RECORD](#), [APPENDIX G: KINDERGARTEN GRADE TALLY SHEET](#), [APPENDIX H: SEVENTH \(7th\) GRADE TALLY SHEET](#), [APPENDIX I: TWELFTH \(12th\) GRADE TALLY SHEET](#) for an example of an immunization record and templates

APPENDIX A: IMMUNIZATION REQUIREMENTS RESOURCES

As of the [2019-2020 school year](#), it is necessary for children being admitted to early education programs, preschool, and kindergarten in Nevada to receive all required vaccines at the youngest recommended age per the recommendation of the Centers for Disease Control and Prevention (CDC) Advisory Committee on Immunization Practices (ACIP) [Immunization Schedule](#). For example, the 5th dose of DTaP is recommended between 4 and 6 years of age. The 5th dose of DTaP vaccine is required at 4 years of age if the child is enrolled in a school in Nevada.

If a child turns an age that meets the youngest recommended age to receive the required vaccines (i.e., DTaP at 4 years old), after enrollment, child care, and/or accommodation facility entry, the child has *30 days* to complete the required immunizations pursuant to Nevada Revised Statutes [NRS 432A.230](#) and [NRS 423A.235](#).

Immunization requirements and resources are available to provide equitable access to vaccinations:

- Connect with local health care providers, pharmacies, community/public health nurses, Federally Qualified Health Centers, or county health districts for access to vaccines or <https://www.vaccines.gov/> for vaccine availability.
- <https://www.dpbh.nv.gov/programs/immunizations/school-requirements/> for Nevada school/child care facility immunizations resources and links to Technical Bulletins.
- https://dpbh.nv.gov/Resources/Technical_Bulletins-New/ for all technical bulletins released.

Please e-mail nviz@health.nv.gov with questions on Nevada's school, child care, or accommodation facility vaccination requirements.

Exemptions As of July 2021, medical and religious immunization exemptions must be submitted on a standardized Nevada Division of Public and Behavioral Health form (see the [Immunization Detection Requirement Technical Bulletin](#)). Children may be exempt from immunization requirements for the following reasons:

Medical Exemption: Requires a Nevada Division of Public and Behavioral Health State Medical Immunization Exemption Certificate signed by a licensed physician (MD or DO) or an Advanced Practice Registered Nurse (APRN) stating that the medical condition of the student will not permit the student to be immunized.

Religious Exemption: Requires a Nevada Division of Public and Behavioral Health State Religious Immunization Exemption Certificate signed by the parent or guardian who prohibits the immunization of the child due to religious beliefs. The standardized immunization exemption forms and resources can be found at:

https://dpbh.nv.gov/Programs/SIP/dta/School_Requirements/School_Requirements/

Exclusion: Per [NRS 432A.230](#) and [NRS 432A.235](#) , unless excused because of a religious belief or medical condition, a child must be up-to-date, or the child may not be admitted to any child care and/or accommodation facility within Nevada.

➤ (Question 2a) Total # of students UTD for DTaP

- Up-to-date (UTD): the student has required doses of DTaP and is fully immunized from DTaP. This excludes students with medical exemptions, religious exemptions, and conditional enrollments.
- UTD is *not* the same as compliant. Compliance means timely administration according to recommended schedules to achieve the best protection. This can refer to an individual getting their vaccines on time, a provider following program rules for administration, or a country implementing mandates for school or other purposes.
