#### AGENDA

3. Public comment on proposed amendments to Nevada Administrative Code Chapters 439 and 441A (LCB File Number R117-21)
4. Public Comment

The proposed changes will revise Chapters 439 and 441A of the Nevada Administrative Code and are being proposed in accordance with NRS 439.200 and NRS 441A.120.

The proposed regulations provide provisions for the following:

- Existing law requires the State Board of Health to adopt regulations governing the control of communicable diseases in this State, including regulations specifically relating to the control of such diseases in medical and correctional institutions. (NRS 441A.120) Section 2 of this regulation requires an employee or contractor of the State Government who is required to enter into an institution for vulnerable populations as part of the regular scope of his or her employment or as part of his or her regular duties under the contract to be fully vaccinated for COVID-19, with certain exceptions. Specifically, section 2 authorizes an employee or contractor of the State Government who is new to his or her position and is not fully vaccinated for COVID-19 to enter into such an institution if he or she has received his or her first dose of a vaccine for COVID-19. Section 2 requires such an employee or contractor to continue to receive doses of vaccine until he or she is fully vaccinated in order to maintain his or her employment or continue to serve under the contract, as applicable. Section 2 also authorizes an

exception to the vaccination requirement where a reasonable accommodation is granted pursuant to federal or state law.

- Existing regulations authorize certain persons to apply for a variance from a regulation of the State Board of Health. (NAC 439.200-439.280) Sections 1 and 2 of this regulation provide that any employee or contractor of the State Government who is required by section 2 to be vaccinated for COVID-19 is ineligible to request a variance from a regulation of the Board relating to that requirement.
