

The background of the slide features a large, semi-transparent version of the Nevada State Seal. The seal is a shield-shaped emblem with a yellow banner at the top that reads "BATTLE BORN". In the center is a white caduceus (a staff with two snakes) superimposed on a white cross. Below the cross, the word "NEVADA" is written in yellow. The bottom of the seal is decorated with a green laurel wreath. At the very bottom of the shield, the letters "EMS" are written in large, white, bold font.

Active Air Services and Capabilities

Nevada EMS Office

775-687-7590 | healthems@health.nv.gov

Effective Date: March 27, 2026

This document provides a comprehensive overview of active air ambulance and related medical air transport services available across various providers. It outlines the capabilities, specialized care options, and operational coverage of each service, including advanced life support (ALS), basic life support (BLS), neonatal and pediatric transport, organ procurement, and international medical repatriation. The purpose of this resource is to assist healthcare professionals, emergency responders, and agencies in identifying and selecting the most appropriate air transport solution for critical patient needs. To verify if this is the most current version please go to <https://www.dpbh.nv.gov/regulatory/emergency-medical-systems-ems/ems-community/>

Active Air Services and Capabilities

AC Global Air Ambulance <https://acglobalmedicaltransports.com/> 888-224-7490

- Air Ambulance - Private fixed-winged aircraft with two medical staff, medical equipment and supplies for any ALS (Advanced Life support) or BLS (Basic Life Support) mission.
- Commercial Stretcher - Stretcher is installed on a commercial airline along with at least two medical staff and medical equipment and supplies.
- Medical Escort - One or two medical personnel may escort you to your front door on a commercial airline flight when an Air Ambulance is not necessary, but some medical assistance may be needed.

- International Commercial Stretcher Service
- Medical Repatriation
- Neonatal Services
- Organ Procurement
- Pediatric Patient Transport
- Bariatric Patient Transport
- Geriatric Patient Transport
- Flight Assistance for Elderly Passengers

Air St. Luke's <https://www.stlukesonline.org/health-services/service-groups/air-st-lukes>
208-381-7770

- Isolette Capabilities
- NICU and PICU Transport
- Critical Care Transport Teams
- Maternal-Child Critical Care Transport

Aircare 1 International <https://www.airambulanceone.com/> 866-775-5236

- Commercial Medical Escort Services
- Infectious Disease Transports utilizing ISO-VAC portable patient isolation unit
- Extracorporeal Membrane Oxygenation (ECMO) Transports
- Mental Health and Behavioral Disorder Transports. All ages
- Organ Transplant Flights

Angel Medflight <https://angelmedflight.com/> 855-817-2702

- ICU Jets for Medical Transport
- Medical Repatriation

Care Flight <https://www.remsahealth.com/air/> 775-858-5700

- Our rotor-wing service area covers approximately 50,000 square miles of California and Nevada, and 11 states across the western United States with our new fixed-wing program. Between our five bases and fleet of four helicopters, one airplane and one Critical Care Ground Transport, we can respond to most areas of the region in under one hour and navigate rural, suburban and complex alpine terrain.
- PICU Transport Capabilities
- Critical Care Transport Capabilities

Classic Air Care d.b.a. MedX AirOne <https://intermountainhealthcare.org/services/air-medical-transport> 775-751-5458

- Adult Critical Care - Complex and invasive ventilatory support, including BiPAP, Mechanical cardiac support, including ECMO, Prone positioning, Vasoactive medications, Bariatric
- Neonatal Critical Care - Complex and invasive ventilatory support (including nCPAP), high-frequency ventilation, inhaled nitric oxide, vasoactive medications, and active cooling
- Pediatric Critical Care - Complex and invasive ventilatory support (including BiPAP), high-frequency ventilation, and vasoactive medications ECMO
- High Risk OB Care - HROB certified RNs, fetal heart monitoring during transport, adult critical care specialist, and neonatal critical care specialist

Guardian Flight, (AeroCare) LLC <https://www.guardianflight.com/> 855-291-8989

- Guardian Flight specializes in the critical medical transport of patients in some of the most remote and rural settings in America — linking rural communities to healthcare facilities. Our well-trained and experienced staff helps accomplish our mission of providing care to the world at a moment's notice.
- Critical Care Transport Capabilities
- Mechanical Cardiac support, including ECMO
- NICU and PICU Transport

Intermountain Life Flight <https://intermountainhealthcare.org/services/air-medical-transport>
801-321-3330

- Air Medical Charter Service for local and international medical transports
- Clinical expertise in ECMO, BiPAP, prone (ARDS), inhaled nitric oxide, VAD support and high frequency ventilation

Latitude Air Ambulance

<https://latitude2009.com/>

888-693-1440

- Medical Evacuations
- Critical and Noncritical Repatriations
- Neonatal and Pediatric Transfers
- Bariatric up to 700lbs
- Dual Patient
- Commercial Escort Logistics and Solution Services
- Organ Transfers

Med Flight Air Ambulance Inc

<https://medflightair.com/>

505-842-4433

- Organ Transplant Patients
- Specialized Maternal, Neonatal, and Pediatric transport capabilities
- Critical Cardiac patients including Intra-Aortic Balloon Pump (IABP) Therapy and Abiomed Impellas
- Long-range National and International Flights with extensive flight experience to/from Mexico and Canada
- Trauma/ Burn Transports
- Critical Care Transports
- Technologically advanced transports utilizing FAA approved Spectrum stretcher system, Air Shields Globetrotter Isolette, LTV 1200 Transport Ventilator, and Philips MRX monitors
- Latest Cardiac monitoring technology with both invasive and noninvasive hemodynamic monitoring, 12 lead EKG, external pacemaker, and Biphasic Defibrillation
- Latest technology in transport ventilators which allows us multiple types of traditional and cutting-edge ventilation strategies

Medway Air Ambulance

<https://medwayair.com/>

844-967-2080

- Air Ambulances with up to ICU levels of care
- Pediatric & Neonatal medical flight transport
- Fast medevac flights
- Long distance medical transport flights

Mercy Air

<https://www.airmethods.com/mercy-air-570464/>

844-728-4060

- Full-service rotor air medical transport system
- Impella Device Therapy
- Intra-Aortic Balloon Pump Therapy (IABP)
- High-Risk OB Critical Care
- Extracorporeal Membrane Oxygenation (ECMO)

- NICU/PICU Transports

REACH Air Medical Services LLC/CalStar Air Medical LLC <https://www.reachair.com/>
800-338-4045

- REACH Air Medical Services provides critical care air and ground transport service to communities throughout California, Nevada, Oregon, Colorado and Wyoming.
- NICU and PICU Transports
- Isolette Capabilities
- Critical Care Transport Capabilities

REVA Inc. <https://www.flyreva.com/> 800-752-4195

- Medical Jet Transport
- International Air Ambulance Flights
- Commercial Medical Escort
- Medical Repatriation Flights
- Private Charter Flights

Rural Medevac Alliance Inc <https://www.ruralmedevac.com/> 844-704-8880

- Rural Medevac Alliance was founded to meet the unique needs of underserved communities throughout the American West. We specialize in providing reliable, life-saving air medical transport—customized to the specific needs of each community we serve.
- Critical Care Transport Capabilities
- PICU Transport Capabilities

Starlink Aviation <https://starlinkaviation.com/air-ambulance/> 877-782-8247

- Urgent medical evacuations from Northern regions of Canada
- Transporting acutely ill adult, neonatal, and pediatric patients to higher levels of care within Canada
- Long range inter-continental critical care transports

- Comprehensive Air Ambulance Services: Provides global air medical transport for all acuity levels—BLS, ALS, Critical Care, Adult, Pediatric, Neonatal, and High-Risk OB—using dedicated, medically equipped aircraft.
- Advanced Specialty Capabilities: Supports complex transports with ECMO, IABP, VAD/Impella, multi-patient care, infectious isolation pods, and on-board point-of-care testing.
- Organ Transfer Expertise: Coordinates time-sensitive organ transplant logistics, including transport of organs, teams, and recipients, with experienced clinical and communications staff.
- Medical Escort Services: Offers licensed medical professionals to accompany stable patients on commercial flights, handling all logistics and in-flight medical care for safe, stress-free travel.
