Attestation of Employee Training

This attestation applies to persons engaged in Radiation Therapy, Radiologic Imaging, Computed Tomography or Fluoroscopy as part of his or her employment on January 1, 2020, pursuant to Nevada Administrative Codes, (NAC) 653.105. This application form is intended for Nevadans and out-of-state practitioners, actively practicing on or before January 1, 2020, to be grandfathered in, while our laws changed. It is a limited hold over to prevent those actively practicing from having to cease work. It is not intended to be a permanent holdover to allow those with inactive, suspended, or retired licenses or registrations to return to practice after some gap in practice. He or she must:

- Submit this attestation to the Division as proof of completed training in radiation safety and proper positioning for X-ray photographs.
- Select the modality below and describe, in detail, your scope of practice or duties engaged in before or on January 1, 2020. Applicant cannot expand scope of practice or duties as of 1-1-2020.
