As of July 30th, Openvaers.com, an organization that monitors the Vaccine Adverse Events Reporting System (VAERS) online database, published the following adverse events (to the COVID vaccines) have been reported to the CDC:

- 12,366 **deaths**
- 46,036 hospitalizations
- 68,040 urgent care visits
- 4,759 cases of anaphylaxis
- 4,044 cases of Bell's palsy
- 14,251 **permanently disabled**

Does this sound "*safe*" to you? You'd literally have to be totally brainwashed or completely "bought off" to continue pushing the "safe and effective" **LIE** after seeing the incredible **DAMAGE** that this vaccine has already done!
