

Summit Mission Statement

(Draft-1/07/2020)

The Governor's Council on Food Security estimates that about 560,000 Nevada residents are 60 years old or older and that about 90,000 of these residents are food insecure.

The Council has identified more than 200 private and public organizations that provide support services to food insecure Nevada seniors. The Council is hosting a summit to enable these organizations to network in order to promote greater integration and efficiency so each can improve and achieve optimal success.
